

Reporting

Annual Summary

Annual Summary data shows a summary of the data arranged by UKBMS Weeks, and the dates shown are week-commencing ...

Figures shown in red are (or include) estimates for missing weeks, based on a simple interpolation.

Raw data will just show the counts exactly as entered. When looking at single sites in Raw data form, you can edit your counts by clicking on the sample link at the top of the column.

Please be aware that there will be delay between entering the walk data, and that data appearing on this page. There are two reasons this may happen: 1) there is a process that must run every 15 minutes to calculate the summary values and estimates, and 2) there is some caching of the data to speed up the page response times. You can bypass the caching by deselecting the checkbox below. Newly entered data should still be visible in your 'My Walks' page.
